

## DRYS TO WARN U. S. JUDGES OF IMPEACHMENT PROCEEDINGS UNLESS LIQUOR LAWS ENFORCED

### PROHIBITION LAWS BEING MADE A FARCE ALLEGED BY ANTI-SALOON LEADERS

WASHINGTON, D. C., September 15.—A committee was appointed today at the Anti-Saloon League conference to draft a resolution warning federal judges that unless they "sacredly perform their sacred duties" in enforcing prohibition laws, the league will seek their impeachment.

The committee was named by the Rev. P. A. Baker, general superintendent of the league after speakers at the conference had vigorously criticized federal judges for alleged laxity in enforcing prohibition laws.

Charges were made that some federal judges had "coddled bootleggers and moonshiners," and that prohibition laws were being made "a farce" in some sections by the light punishment.

Wayne R. Wheeler, general counsel of the league, declared that the warning to federal judiciary should be "clean cut" and a notice to all that official obligations must be observed.

WASHINGTON, D. C., September 15.—Enforcement of the prohibition amendment plans for the fight before the next congress to prevent modification of the enforcement act and world prohibition, were the principal topics before the conference of Anti-Saloon League leaders which began here today to continue through Friday. The conference was preliminary to the international congress against alcoholism which begins here next Monday.

Enforcement of the liquor amendment was discussed today by Prohibition Commissioner Kramer, Wayne R. Wheeler, general counsel of the Anti-Saloon League and other speakers. Mr. Wheeler declared that national prohibition would never be repealed, but that it might be nullified.

"The power to enforce national prohibition is given both to the state and nation," said Mr. Wheeler. "It is up to the people to see to it that federal and state officers do their duty in enforcing and enforcing the amendment. Local and state officers who are trying to evade responsibility in the enforcement of national prohibition should be removed from office."

"The state has the same legal obligation resting upon it to enforce the eighteenth amendment, that congress has. From a practical standpoint it has a greater obligation, because it has more officials to do this work. The state by failing to adopt a state enforcement code encourages lawlessness within the state."

### Harding Sets Forth His Views Of Women In Politics, Welcomes 'Em

MARION, O., September 15.—In a message addressed to the Republican women's organizations of America and the women's Harding and Coolidge clubs, Senator Harding today set forth his views on women in politics and why they should align themselves with the Republican party. "Our country," he said, "will be well served by the participation in politics of all our citizenship."

The message is addressed to Mrs. Jay F. Zucker, president of the women's Harding and Coolidge Club of New York City, and is sent to all women's organizations.

In his message he referred to the League of Nations, declaring that "women are too wise and too true in mind, to listen to technical discussion tending to prove that having made a moral promise by an indefinite international agreement we could induce congress to withhold the action needed to perform our moral obligations. We must measure our obligations in determination to live up to them."

The message said in part: "I believe that before we emphasize the need for any new voters to join the particular political party, we must emphasize the need for their joining some party, and giving to the party of their choice their service, conscience, wisdom and loyalty."

"Our two party system has brought progress and prosperity to America and the party not in power has always been capable of gaining influence to check recklessness or willfulness of the party having control."

"We must point out, especially to women voters that our own party offers them the best hope of measures of social justice, aimed at preservation of the human resource and of the American home."

"We Republicans are committed to a policy of solving housing problems and encouraging home owning. The platform of our opponents fails to consider this subject. We have declared ourselves for a long list of social justice."

Left to right, above: Mrs. Ella A. Tost and Edwin C. Dinswiddle. Below: Alexis Bjorkman, Dr. Deymals Gollinks and Dr. Aschaffenburg.

Men and women from the world over who have been most prominent in the fight against alcohol will take part in the Fifteenth International Congress Against Alcoholism, to be held in Washington, D. C., September 21 to 25, inclusive.

The head of the American committee that will direct the deliberations of the congress is Edwin C. Dinswiddle. Mrs. Ella A. Tost of West Virginia will be director of the women's activities. Among the famous Europeans who will speak at the congress are Alexis Bjorkman, Dr. S. Daszinska Gollinks of Poland and Dr. Aschaffenburg of Germany. This is the first time the congress has met on prohibition soil.

### Some Battle!

LOS ANGELES, Sept. 15.—One hundred and sixty accidents and injury claims were filed here today with the workers' state industrial commission by motion picture actors and actresses who took part in a battle scene that was photographed last week. The claimants for the larger number were women.

### Empty Title Of National Committeeman

JEFFERSON CITY, Mo., Sept. 15.—The Missouri Republican platform convention adopted a platform and authorized today after the state central committee had approved a resolution ratifying an agreement between Jacob L. Babler of St. Louis, national committeeman for Missouri, and Will H. Hays, chairman of the national committee, whereby all communications pertaining to campaign plans would be dealt with directly between the state and national committees, leaving Mr. Babler the resolution said, retain the empty title of national committeeman.

Mr. Babler's name was mentioned in connection with the distribution in Missouri of the pre-convention campaign funds of Governor Lowden of Illinois, a candidate for the Republican presidential nomination.

The resolution was adopted by the state committee after Mr. Babler had refused to obey a summons to appear before the committee and resign.

### PRICE GOING TO PITTSBURGH

CANTON, O., September 15.—Attorney General John G. Price will leave Canton today for Pittsburgh to receive testimony in connection with the state's fight to retain the supply of natural gas now being furnished by West Virginia gas fields.

General Price came to Canton to attend the golden wedding celebration of his parents, Mr. and Mrs. E. C. Price, held last night.

### Radical Vote Will Determine Washington's Political Complexion

BY DAVID LAWRENCE  
(Copyright by Times Publishing Co.)

SPOKANE, Wash., Sept. 15.—Eastern Washington looks Republican by a narrow margin but it is the western part of the state where the radical vote bulks large that will determine the complexion of Washington's seven electoral votes.

This part of Washington, however, affords a glimpse of the normal. Here the nearest and a desire for a change is expressed by Democrats as well as Republicans of the business and professional men's class. And the women of the same social stratum echo the thought.

The League of Nations question has been so completely muddled in this section of the country as to be hardly a controlling influence either with men or women voters.

Among the masses, particularly the laborers and railway men and their families, the drift toward Governor Cox is pronounced and to the Democratic leaders here it spells the same series of turn over symptoms that gave the state to Wilson in 1916 by 16,000 plurality.

That was so much of a surprise to Republicans that even they temper their predictions with a grain of reminiscence about the surprise of four years ago—for it was a surprise to have a normal Republican state go Democratic which even the split of 1912 had given its electoral vote to Roosevelt.

This is indeed a progressive state and the progressives held the balance of power along with the radicals. In other words the old line Democrats and Republicans are in the minority, while the independent minded voters is the ruling force at the polls.

Conflicting opinions as to the direction of the progressive and radical vote are expressed in private by the leaders. The Democrats are deriving comfort out of the fact that Roy Wicker, formerly progressive Republican, has come out openly for Cox because he believes the latter a reactionist and Harding a reactionist.

On the other hand the usual number of straw votes have been taken of the primaries and indicate much shifting of electoral currents. Among

### Three Children Die In Family

CINCINNATI, O., September 15.—Shirley, 4; Carl, Jr., 2, and Stanley, 4 months old, the three children of Mr. and Mrs. Carl Williams of Newport, Ky., died early today. In all three cases death was preceded by violent convulsions. Two physicians were summoned but their ministrations were futile. Coroner Hughes, of Campbell county, Kentucky, is investigating.

The inquiry will be along the line that the children in some way obtained and ate poisonous substances.

## President Of France To Resign

PARIS, September 15.—President Deschanel will undoubtedly be obliged to resign because of his ill health, and the question of the presidency will be taken up by the cabinet Friday, according to a semi-official communique issued this evening.

VERSAILLES, Sept. 15.—(By The Associated Press)—Reports that the resignation of President Deschanel was imminent, because of his failure to regain his health, were given credence today by preparations already apparent here for the meeting of another national assembly which would elect his eventual successor.

Great activity was observed this morning among the staff at the palace, which busied itself making ready the assembly chamber where the senate and chamber of deputies meet in joint session to select a president of the republic.

Meanwhile, the employees in the Hotel Des Reservoirs, the principal hostelry of Versailles, were busily engaged all the morning registering reservations that were coming in for tables for the lunch of which is a traditional feature of such assemblies.

PARIS, Sept. 15.—Alexandre Millerand, French premier and foreign minister, is prominently mentioned as the next president of the French republic, should President Deschanel resign because of ill health, says the FIGARO. Notwithstanding his long rest and treatment by specialists, the FIGARO declares, President Deschanel is unable fully to discharge the duties of his high office, and it is said he, himself, feels he can no longer continue to assume the trust with which he has been invested. Nothing is known as to how he will carry out his resolution to resign, but the cabinet will have to consider, perhaps this week, the summoning of the national assembly, the newspaper asserts.

### Hunger Striker Still Alive

LONDON, Sept. 15.—Little change in the condition of Lord Mayor Terence MacSwiney of Cork, was reported this morning by the physician of Brixton prison, where MacSwiney is incarcerated.

In his report to the home office, however, the physician declared "increased weakness" was noticeable.

The bulletin issued by the Irish Self-determination League reads: "This is the thirty-fourth day of the strike. The Lord Mayor passed a somewhat better night and had a few hours sleep. The pains in the body and limbs continue. He is still conscious and his mind is active."

## Many Dry Throats In Mexico City As The Result Of Ban

MEXICO CITY, September 15.—(P.)—The ban against the sale of intoxicating liquors, which was announced last week and which ordered all drinking places in the capital closed from early Saturday afternoon until Sunday morning, have been received in large numbers by the government. No consideration has been given them, according to a statement made last night by Provisional President De La Huerta. This attitude on the part of the administration is considered to reflect its intention to take steps to carry out its proposed "dry" program.

## PRESBYTERIANS FAVOR THE UNION OF CHURCHES AND ALSO WOMEN FOR DEACONS AND ELDERS

Two overtures from the general assembly of the Presbyterian church in the U. S. A. of interest to churchmen were approved by the Portsmouth Presbytery at its fall session, which closed yesterday after a most successful two day meeting in Winchester. The first of the overtures was one proposing a plan for the union of all evangelical denominations. This overture was adopted by the committee, of which Dr. Geo. D. Horst of this city was chairman; and the Presbytery adopted the recommendation of the committee without question. The second providing for the ordination of women as deacons and elders was reported by the committee but the Presbytery approved the overture. Rev. Bliss H. Cartwright, stated clerk of the Presbytery, made an impassioned appeal for the approval of the overture. The vote was 12 to 8 against adopting the action of the committee. Rev. John H. Cowan, pastor of the Presbyterian church at Georgetown was elected to succeed Rev. Geo. P. Horst of Portsmouth, who preached the sermon on Monday evening, choosing as his subject, "Our Rewards in Heaven." Rev. Leigh O. Wright of this city, pastor-at-large, was elected temporary clerk. CHICAGO, September 15.—One man killed, three kidnapped, several beaten and a half dozen arrested on charges ranging from election fraud to assault to tumult marked the Chicago balloting in the Illinois primaries today. Michael Kenney, aged 35, a precinct worker, was shot and killed at a seventeenth ward polling place by a policeman. Detectives who arrested the slayer said he had been drinking. John S. Molka, a political worker in the twenty-ninth ward, was kidnapped by five armed men who after robbing him of jewelry and more than \$100, and severely beating him, threw him out of their automobile and was told not to return to his precinct. Two other persons who were kidnapped have not been found. Police and a special deputy sheriff clashed in the second ward and Lee Thornton, a colored deputy sheriff, was arrested charged with assault to com-

## Beehive Is Stolen; Bloodhound Picks Up Trail

Dewey Parsons of New Boston returned Tuesday night from near Lathrop, Pike county, where he was called to use a bloodhound on the trail of a thief or thieves who stole a beehive from W. Rosa of Latham Monday night about nine o'clock. Rosa also had some sawmill tools stolen some time ago. The bloodhound picked up a trail at once and followed it for over two miles to a shanty. The beehive was found on a hill some distance from the house according to Parsons who was accompanied by Marshal Robinson of Waverly. According to Parsons the man's tracks followed those of an unshod horse and it is thought the hive was carried away on horseback. Parsons returned home leaving Marshal Robinson on the scene and an arrest was expected last night but at the Pike county Sheriff's office today it was said that no arrests had been made.

## TO DISCUSS SEWER SITUATION WITH THE HUNTERS

An important meeting of all citizens interested in the sanitary and storm sewers of Portsmouth and the water works situation are urged to be present at a meeting to be held Thursday night in the Chamber of Commerce assembly room at 7:30 p. m. at which time T. H. Waring a representative of the State Board of Health will be present to give some facts on these subjects. He recently made an inspection of the sanitary and storm sewers and water works and has valuable first hand information relative to the needs of Portsmouth along these lines. Shells and ammunition were purchased in large quantities at local hardware and sporting goods stores, the demand coming Wednesday with the opening of the hunting season. With the opening of the hunting season Wednesday, Harry Shaw, N. & W. conductor, Commissioner W. O. ## Get a Start On Your Rheumatism

Begin the Proper Treatment Before the Disease Gains Become Active

Suppose you could save yourself much of the torture that Rheumatism has in store for you this winter, by taking a little precautionary treatment right now? Don't you think you would be wise in doing so?

The little pain demons that often cause Rheumatism lie dormant and inactive in summer, but when winter approaches they resume their attacks with renewed fury.

If you have been a victim of Rheumatism, don't make the mistake of thinking that you are at last free from its clutches, simply because you have escaped its pains in summer. The first damp, cold day of returning winter will convince you of your error.

from your system right now while they are less able to resist effective treatment.

Until you do cleanse your blood of the cause of your Rheumatism, you will remain in the clutches of the disease, and you will have to undergo another season of rubbing with liniments, lotions, etc., in an endeavor to get relief from its torturing pains.

Many people have found that the summer season is an excellent time to cleanse the blood of the impurities which cause their Rheumatism, because the germs are more easily reached while they are inactive.

One of the best remedies for Rheumatism is S. S. S., which is an excellent blood purifier, and acts by eliminating from the blood all impurities. S. S. S. has been successfully used in hundreds of cases of Rheumatism, and perhaps it is just the treatment that you need. It is sold by all druggists.

Our trained physician will take pleasure in giving you any desired information or advice to take advantage of the dormant condition of the disease. Write today to Chief Medical Adviser, S. S. S. and endeavor to eliminate them.

## Now the whole family can go out on a Summer evening

THE women should certainly be thankful for the automobile. It has given them a chance to see a lot more of their husbands.

they're beginning to insist on knowing what they are getting.

And the more they insist, the better it will be for us.

But it has done a great deal more than that.

It has brought people closer together, given them new interests, swept away old prejudices.

What affects one man now generally affects a good many of his neighbors in the same way. And they have a better chance to get together and talk things over.

We want our customers to know what they are getting.

That's why we represent U. S. Tires—so there will be no doubt about it.

Whatever the size of your car, you know that the U. S. Tire you put on it is the best kind of tire its makers know how to make.

U. S. Tires are guaranteed for life, without any limitation of mileage.

That ought to mean something to the man who has thought about tires.

It's had its effect on the tire business.

When automobiles were new people were willing to buy any kind of a tire. Now

## Air Postmen Burn To Death

CLEVELAND, O., Sept. 15.—Air Mail Pilot Walter Stevens and Mechanic Russell Thomas, both of Cleveland, were burned to death at a school today when their plane caught fire at an altitude of 500 feet at Emburyville, Ohio 15 miles south of Toledo.

Stevens and Thomas were flying a J. E. all-metal monoplane. They left here at 12:30 p.m. for Chicago with 40 pounds of mail, which they were delivering after an accident in which a mail plane was wrecked here today and Pilot William Riddlebaugh slightly injured shortly after taking off.

Stevens was a veteran of the air mail service, having been a member since its inauguration. He came here from Cleveland, Mich. Before departing today he told friends at the flying field that this would be his last trip as he had resigned.

Thomas lives a mile of four days.

## Resinol does wonders for sick skins

That itching, burning skin trouble which keeps you scratching and digging, is a source of embarrassment, as well as of torment to you. Why don't you get rid of it by using Resinol Cream? Resinol Creams are prescribed by the best doctors. In most cases, it stops itching instantly and heals eruptions promptly. It is very easy and economical to use.

Sold by all druggists. Prepared by Resinol Chemical Co., Inc., 100 West 17th Street, New York City.

Must Go Together. It is futile to attempt to live in sections, separating business from religion and work from faith.—Hugh Black.

## COURT HOUSE

**Auto Collision**  
An auto of a collision between a truck and a truck, which occurred at the intersection of Gallia street and Market Road on July 26, was taken to Municipal Court Wednesday by J. T. Borders, 1323 Twelfth street, who through Attorney John W. Hinton, instituted an action for damages from B. F. Stewart, driver of the truck, for damages he alleges he sustained to his automobile. The plaintiff alleges negligence and recklessness on the part of Stewart, driver of the truck.

**Sparks Sues Diver**  
On the grounds of neglect and injury, Hugh M. Sparks is seeking a divorce in an action filed in Common Pleas court Wednesday against Mattie Sparks.

In his bill of complaint, Sparks says they were married May 3, 1919, and through Attorney B. F. Kimble alleges that the defendant associated with persons of immoral character, that in September 1919 she locked him out of their home and shortly afterwards abandoned him entirely.

**Says Wife Abandoned Him**  
A divorce is sought by John W. Morrison, machinist, 1426 Offshore street, from Mayme Morrison, in an action filed in Common Pleas court Wednesday in which he charges neglect.

They were married May 28, 1918, and Morrison declares that while he was at work at the steel plant in running the defendant a living, she

secretly entertained men at her home and that on August 18 last, she deserted him and left with another man with whom she had been associating, taking a large portion of their household goods with her. He claims she is living with the other man at Cloonville. Morrison sued through Attorney B. F. Kimble.

**Have Joined the Hunters**  
Auditor Roy Coburn and William Thompson and James Platt, clerks in the probate office, were the recruits from the Court House that joined the army of hunters that invaded the woods Wednesday morning in quest of squirrels.

Coburn migrated to the eastern part of the county and Thompson hunted in the vicinity of his Madison township home while Squire Platt journeyed to his old haunts in Kile township.

**Couple Held**  
Taken into custody by railroad officers in the North End for alleged misconduct, Clarence Murphy, aged 27 years, negro, and Gladys Rogers, aged 16 years, white, were taken to the county jail where they are held for the probate court, the girl for being an alleged delinquent and the man for contributing to her delinquency.

**Marriage License**  
John Apel, 38, welder, city, and Ida Augusta Stock, 31, city, Rev. S. Lindemeyer.

## Young Man Stabbed

(BULLETIN)  
This afternoon Sommer had recovered from the effects of the anesthetic and was getting along nicely. He is expected to steadily improve barring complications.

Martin Sommer, 18 year old son of F. J. Sommer of Carey's Run, is in Hempted hospital with a serious stab wound in his stomach, a laceration in his left side and a cut

on his left forearm, the result of a three cornered fight on Carey's Run a short distance from his home about 11:30 Tuesday night when it is alleged he was attacked by Harold and Lewis Hopkins who live on a neighboring farm on Carey's Run. Young Sommer was on his way home from the street carnival in this city when he was suddenly attacked. The wounded young man was still under the influence of the anesthetic this morning

and could not talk of the fight or tell which one of the two had the knife. Young Sommer, his brother, May Sommer and Frank and Will Grunne of Carey's Run were driving home in a machine when something went wrong with the engine. Young Sommer got out to locate the trouble and as he worked with the engine he was attacked. The other three young men were in the machine and as soon as the fight started they jumped out and

separated the three but not before Sommer had received the three cuts. He was helped to his home where Dr. Harry Rapp of this city attended him. He was removed to Hempted hospital about 3:30 o'clock this morning and there an operation was performed to determine the seriousness of the stab wound in the stomach. The knife blade pierced the stomach. Several stitches were necessary to close the wounds on the left side and left forearm but these cuts were not deep. Ray Sommer was in constant attendance at his brother's bedside this morning, the wounded man being very restless.

The fight is the outcome of an old grudge between the Hopkins boys and Sommer boys according to Ray Sommer. A short time ago one of the Hopkins boys was in Municipal Court the result of a fight between Edward Sommer a younger boy than Martin and one of the Hopkins.

Gray has made a number of friends during his stay here and was quite active in church work. His many friends wish him the best of success in his new home.

The Home and Foreign Missionary Society of the Baptist church met in business and social session Tuesday evening at the home of Mrs. Leon Vetry, Gallia avenue. Plans were made for a social to be given on Saturday evening, September 25th, at the home of Mrs. Clinton Rose, Glenwood avenue. Mrs. Walter Duffel of Harrisonville avenue will be hostess of the next meeting in two weeks.

**Chinese Perfume.**  
In China, at dinners and at theatrical performances, it is customary to provide guests or spectators with small bowls saturated with scented water for wiping their faces. Scented water is also much used in connection with bathing and the everyday washing of faces and hands. In some Latin-American countries there is a very great demand for perfume. If a person needs a bath, a dash of perfume is supposed to serve as well and time and trouble are saved.

**No Room for Them.**  
"Isn't there a notion that spirit walk the earth on Halloween?" "Yes," replied Mr. Growcher. "But they don't. None of them would dare take a chance on meeting the small boys who have taken charge of that particular date."

### HIS LORDSHIP WILL WATCH GOLF MEET FROM SIDELINES

Lord Charles Hope is one of the trio of star English golfers who came to the U. S. to compete in the national amateur golf tournament at Royal's L. I. and failed to qualify. Cyril H. J. Tolley, English amateur champion, and Roger H. Wethered, his team captain at Oxford, are the others.

### The Corseting of the Young Girl

It is not such a simple matter as might be supposed. Just a light, soft little corset is required, to be sure, but it must be correctly designed and firm enough to give support to the back, to brace the shoulders and to prevent any enlargement of the diaphragm.

It must give that poise which will make her frocks look smart—and, above all, it must be completely comfortable. Reform Corsets for slim, girlish figures are ideal in every particular. A fitting will demonstrate their unusual qualities. And let us show you some of our special front-lace models for slight figures. They are so easy to adjust and so comfortable that most young girls prefer them both for every-day wear and for dancing.

### Radical Vote To Control Wash.

(Continued from Page One)

The business men, the change from Democratic to Republican is considerable. Governor Cox didn't attract votes in that class when he was elected. His tactics were described by some Democrats of the conservative type as "wild slingshot."

Mr. Cox emphasized the Republican campaign fund and read letters bearing on the local situation. It so happened that the word of the Republicans who have been raising the funds is a potent force of the community. So the effect of the exposure was to alienate those who believed the Democratic nominee had raised a smoke screen without definite proof of corruption.

Governor Cox openly flouted the laboring classes and the radicals. With them of course the charge of large campaign funds is a doxifine matter. Like the soap box preachers and other agitators preach in the streets the crisis of big business. Unquestionably Governor Cox won votes from the laboring classes and also drew to his side those who have never believed in prohibition.

For while these western states have gone dry and dry again, the threat of a great many people has not entirely disappeared. They talk enthusiastically of wetness both in Montana and Washington. Indeed, some people hereabouts have a sort of an impression that Governor Cox will not be as hard on prohibition as he is in Washington. Many voters probably will be influenced by statements like that given to local newspapers here today by Mrs. Mary Armour of Crawfordville, Ga., a prohibition speaker in Spokane churches. She said:

"As to the prohibition, I don't think it matters which man gets there so far as prohibition is concerned for I believe Harding is just as wet as Cox and that Cox is as dry as Harding. In fact, I think they try to make out that they are wet and in dry states they try to make out they are dry."

Incidentally the Democratic nominee for Senator was, and is, a leader in the prohibition movement in this state. But it is really significant that no issue is particularly controlling.

Radicalism is rampant in Washington and the Democrats are trying to convince the masses that Cox is more closely akin to the non-partisan league and the demands of labor than is Harding. So much so that Attorney General Palmer's record in jailing radicals and using the injunction that if Governor Cox does not call a large part of the radical vote it will be as a result of his own record in handling labor in the past rather than any particular love for the Wilson administration.

Governor Cox received a good reception in eastern Washington. He carried his crowds well.

Franklin Roosevelt made a pleasing impression and won friends for the national ticket.

The consensus of opinion seems to be that judging by outcroppings of sentiment of the eastern end of the state, Washington will carry Spokane and victory for Harding by at least 2,000. Such an estimate is regarded by Democrats as a confession of weakness. The fact of the matter is that western Washington will decide the issue as two thirds of the registered vote is cast in the Seattle and Tacoma districts. No decisive trend in either direction appears to have developed in the eastern part of the state and the west coast region will have to tip the scales.

### 600 GET HUNT ER'S LICENSES

The force of clerks in the office of the Clerk of Courts at the Court House were kept busy until a late hour Tuesday night issuing licenses to hunters anxious to obtain the necessary permit to entitle them to hunt squirrels on the opening of the season this morning. Two hundred and sixty permits were issued yesterday alone which brings the total granted for the year up to almost 600.

### Street Fair Well Attended

Another large crowd attended the Loman-Robinson shows at Sixteenth and Fifth streets Tuesday night. All the shows are well patronized. They are clean and wholesome and the company apparently is in for a big week here.

### Judge Chittenden May Get Place On Democratic Ticket

COLUMBIA, O., Sept. 15—Judge Charles E. Chittenden, Toledo, of the Lucas county court of appeals, is being touted as the most likely Democrat to get Judge Kent W. Hughes' place as supreme court candidate when the Democratic central committee meets here tomorrow to select a man for the ticket.

Judge Hughes' resignation has been accepted. He said he didn't want to leave Lima, as he would have to, if elected.

No other issues of any importance have developed so far for consideration of central committee.

### Four Parties Qualify For Ballots At Ohio Election

COLUMBUS, O., Sept. 15—With the prohibition and Farmer-Labor parties each slay about 300 signatures necessary to put their tickets in the field, Secretary of the state Smith today said he would certify the November ballots tomorrow.

So far, four parties have qualified, Republican and Democrat, and the Socialist and Single-taxers. Ohio laws require approximately 200 signatures to put a ticket in the field, while the prohibitionist and Farmer-Labor tickets need only about 100 and no additional ones has arrived in today's mail so far.

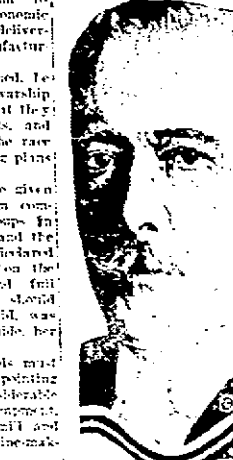

Prohibitionists in a formal statement have declared they will attack the constitutionality of the law under which minor parties are entered unless they are given a place on "a" ballots admitting at the same time that they would not have the legal count of signatures.

If the prohibition ticket is not put on the ballot, it will mean that Mr. Aaron S. Watkins, standard bearer of the party, will not be able to get the votes of his Ohio friends and neighbors. His home is at Germantown.

## SENATOR SMITH IS RENOMINATED

COLUMBIA, S. C., Sept. 15—United States Senator Ellison D. Smith, was renominated by South Carolina Democrats at yesterday's primary, unofficial returns to the Columbia state from 14 to 16 counties in the state indicated early today. The state's figures, according for 90,000 of an estimated total vote of 100,000, gave Senator Smith a majority of 17,000 over his lone opponent, George Warren, of Hampton. The vote was Smith 43,641; Warren 36,500.

The primary was the second one held in South Carolina. None of the senatorial candidates in the first primary received a majority of the votes cast.

## HOT FOUR CORNERED CONTEST FOR GOVERNOR

MONTEPELIER, Vt., Sept. 15—A four cornered contest for governor on the Republican ticket in the state primaries yesterday resulted in a victory for James Fairbanks of Springfield by a vote nearly two to one over his nearest opponent.

Congressman Porter H. Dale was renominated by the Republicans in the second district, winning an easy victory over two other candidates.

Senator William P. Dillingham and Congressman Frank L. Greene, in the first district, were renominated without opposition.

The Democrats, who had no contests nominated Fred C. Martin for governor, Howard E. Shaw for senator, Jeremiah C. Durick for congress in the first district and Harry W. Witters in the second district.

## ORGANIZATION MEN WIN IN NEW YORK PRIMARY

NEW YORK, Sept. 15—Republican and Democratic candidates, who relieved the endorsement of the unofficial state convention at Saratoga, won decisive victories in all state wide contests in yesterday's New York state primary.

With 2,549 districts missing out of a total of 1,274 in the state, Nathan L. Miller of Syracuse, former judge of the state court of appeals, Republican organization nominee for governor, led State Senator George F. Thompson of Niagara by 17,782 votes. The vote was:

Miller 151,290; Thompson 93,488.

Senator Thompson's name, however, will appear on the ballot in November as the prohibition candidate for governor. He was unsupported for the prohibition nomination.

Governor Alfred E. Smith was renominated without opposition by the Democrats.

United States Senator James W. Wadsworth Jr. backed by the Republican state organization, won an easy victory over Mrs. Ella A. Moore, president of the state branch of the Women's Christian Temperance Union, and George H. Payne, New York City tax commissioner. The vote in 454 out of 1,274 districts was:

Wadsworth 170,715; Moore 48,672; Payne 28,267.

Lieutenant Governor Harry C. Walker, organization candidate for the Democratic nomination for United States senator, apparently defeated Mayor George H. Lann, of Schenectady by a vote of more than two to one, either side apparently polled the vote expected, although splendid weather prevailed and both Republicans and Democrats strove hard to round up the voters. There are approximately 1,200,000 enrolled Republicans and 1,400,000 enrolled Democrats in the state.

## NON-PARTISAN CANDIDATE IS LEADING IN COLORADO

DENVER, Colo., Sept. 15—The non-partisan candidate for the Democratic nomination for governor, John H. Rogers, former state treasurer, showed interest in the other candidates in yesterday's state wide primary, a little more than 100 votes.

With most of the city vote heard from and a majority of the country precincts reported, Rogers was leading Robert H. Hargis, former state treasurer, by a little more than 100 votes.

## C. O. F. Elect Officers

At a meeting held recently, the State Convention, August 1920, of the C. O. F. Officers elected were: Arthur J. Gorlach, Chairman of Sick Committee, August 1921; Vice, Charles R. Hargis, 1921.

These officers will be installed at the first meeting in October. The office of chairman of the sick committee was made permanent at this meeting.

## G. O. P. Slush Fund Over 25 Million-Cox

BOISE, IDAHO, Sept. 15—A fund of from \$25,000,000 to \$30,000,000 is being raised to defeat him, Governor Cox, of Ohio, Democratic presidential candidate, declared during his tour of Idaho and eastern Oregon. Although the governor's charges heretofore were that the total opposition fund would be not less than \$17,000,000, he raised that figure.

The governor's statement was made during an hour's speech from the grand stand at a Nampa, Idaho, hotel, and in response to a question from his audience asking how he expected to return conditions to normal, when 20 percent of the wealth is held by two percent of the people.

"If 20 percent of the people will forget their politics," the governor replied, "and help me lick the two percent that is raising a fund of from \$25,000,000 to \$30,000,000 to beat me, we will make government an agency for the one hundred percent and not the two percent."

Dismissing his physician's orders, leaving another speech, the governor, believing his attack of "speaking's laryngitis" on the way, delivered a string of platform and other general addresses. His voice still was hoarse, but he weathered another strenuous day of campaigning in good shape, he said.

Governor Cox told his audience that opposition to the issue was a political plot against America as well as a world revolution designed to "take the world's property" to increase "feeling" against the Wilson administration and to force employees to accept lower wages.

"History will write it as the most reprehensible in all time," he said, "the dismemberment of the United States by the action of the legislature yesterday did not concern him. He added that he has outlined how that state can be rightly accomplished as well as preceding way.

"Stop building battleships," he said, "and we will use that money to make legal way."

## Woman Takes Copy To Wash.

HARTFORD, CONN., September 15—Governor Marcus H. Holcomb, doubting the legality of the ratification of the nineteenth amendment by the legislature yesterday, has withheld certification of the action.

Miss Catherine M. Hannigan, of the Suffrage Association last night secured a certified copy of the resolution of ratification and left for Washington to file it with Secretary of State Clegg.

The legislature has been called into special session next Tuesday to reconsider the action of the legislature yesterday did not concern him. He said that the action of the legislature added that he has outlined how that state can be rightly accomplished as well as preceding way.

"Stop building battleships," he said, "and we will use that money to make legal way."

# Will Present The Claims Of Local Route For Ship Canal

An important meeting of the Chamber of Commerce waterways committee was held Tuesday afternoon in connection with the coming hearing before the Board of United States Engineers on the Ohio to Great Lakes canal project. Other matters of importance were also taken up by the committee at this meeting.

Prof. Sherman, Dean of Engineering at the Ohio State University, has prepared a section of the state topographical map showing the Portsmouth-Sandusky route, with the proposed ship canal laid out thereon, the location of the dams plainly marked, the bridges and their elevations set forth, and the location of the water-lift lake with its tributary stream clearly indicated. This map is about 10 by 12 feet in size, in addition to this map, a large survey compiled last fall and including the actual tonnage originating in every town along the proposed route shows that at this time, and without any prospective increase, which will naturally follow if the canal is built, there is more tonnage than the carrying capacity of the canal. In addition to these two features, papers are being prepared, and will be presented to person by the men preparing them, showing the natural resources of the proposed route and the possible future development of these resources in the event of the canal being built.

In all, a complete case has been built up, and every city and town along the route will have a strong delegation at the Toledo hearing on September 27th to advance reasons as to why the central route should have the canal.

Another hearing on this matter, will be held in Pittsburgh on Monday, September 20th, to hear arguments in favor of the Pittsburgh route and the Portsmouth Chamber of Commerce will have one representative at this hearing to take notes and rather than data as to the points brought out.

The Waterways Committee will recommend to the directors of the Chamber of Commerce, at their next meeting, that a committee from this city attend the Toledo hearing and do all in their power to present the central route to the government engineers.

The Waterways Committee also instructed the Manager of the Chamber to collect data on the freight rates charged by the river packets, this data to be used in a study the committee are now making on river terminals.

The committee also took up the matter referred to them by the directors in connection with straightening the Scioto River. For the past few years the Scioto River has been gradually eating its way into the banks on the west side of the bridge, and if some steps are not taken to eradicate this condition, it is possible that the west end of the bridge will be washed out and the river will find a new channel.

The committee is calling the attention of the State Highway Engineers to this situation and an effort will be made to have representatives of the state come here for a joint conference with the county commissioners, the county engineer and the committee in endeavor to have taken to eliminate this danger.

## PROFESSIONAL NURSE FOR NERV-WORTH

Mary A. Thorn of Huntington, W. Va. Gave A Weighty Recommendation In A Letter Written Some Time Ago, Telling Of The Good Work Done By This Famous Preparation.

"I had heard of many people being relieved of stomach trouble by your Nerv-Worth," said Mrs. Thorn. "I was troubled with the same disease. I would have fainting spells, sleepless nights, bloating, constipation and everything that nervous indigestion would cause. After taking half a bottle of Nerv-Worth, I must say it's the best medicine I have ever taken for my trouble. Being a professional nurse, my business requires me to lose sleep, and when I get through with my work I feel very much in need of rest, everywhere.

## Fall Dress-Up Week

That Fall and Spring Dress-Up Weeks have a big advertising value and are not mere stunts has been conclusively proven in many of the more progressive cities in this country during the past few years and merchants are rapidly beginning to recognize that the more effort they put into an affair of this kind, the more benefits in dollars and cents they derive from it.

It is the endeavor of the Retail Committee of the Portsmouth Chamber of Commerce to put on one of the largest Fall Dress-Up Weeks ever attempted in this city. The members of this committee are working hard on the proposition and they are receiving the hearty support of the merchants.

In order to make this affair a little different than any held in the past, a new scheme has been developed which will add zest to the occasion. This scheme is as follows:

Instead of having the windows open for inspection at any time on Tuesday, Sept. 21st, the opening day of the Dress-Up Week, all merchants are requested to cover their windows with a curtain, heavy paper, or some other screening so that no one can see what is in the window until the hour for unveiling arrives.

Promptly at 7 o'clock Tuesday evening, a signal will be given by the whistle of one of the factories, consisting of three long blasts. At that time, every merchant will unveil the windows of his store.

The River City Band has been engaged for the evening, and starting promptly at 7 o'clock, the band will render a short program at the post-office corner. From that on until 10 p. m., the band will play up and down Chillicothe and Gallia streets, as well as some of the intersecting streets, stopping in front of various stores from time to time in order to give the people an opportunity to view the windows.

The Chamber of Commerce will give three prizes for the three best windows as decided by the judges selected by the Retail Merchants Committee. These judges are Prof. Frank Appel, Rev. D. C. Hoff, Attorney Mark Crawford, Mayor Wm. Gableman, George Taylor, Mrs. James Hager and Miss Edna Strech.

These judges will assemble at the Chamber of Commerce at 7:30 p. m. Tuesday evening and make an inspection of the windows, after which they will hand down their decision as to the prize winners.

The advertising value of an event of this kind cannot be overestimated, and in many cities where Dress-Up Weeks have become an established thing, the merchants spend hundreds of dollars in arranging tasteful window displays, many cases rendering valuable oil-paintings and other fixtures which add to the attractiveness of their windows.

## BIRTHS

A son was born Tuesday to Mr. and Mrs. William Anderson, of New Boston. Mr. Anderson is a steel worker.

## WITH THE SICK

Frank Mitchell, of City View West Side, is dangerously ill with cancer of stomach. Mr. Mitchell is 75 years of age and little hopes are held for his recovery.

To Remove Lead From Gunbarrels. Chemically pure and strong nitric acid will dissolve the lead in a gun-barrel, and will not injure the metal of the barrel unless the acid becomes diluted with a little water. To remove the acid, pour all of it out and wipe the gun dry with a rag soaked in oil or kerosene oil. Do not get the acid on the hands or clothes. If by chance this happens it should be washed off immediately with water and then some weak alkali.

## SOCIETY

Mr. and Mrs. Adam Pfau of Hutchins street will attend the convention of the American Association of the Baking Industry, at Atlantic City, which will be held from September 20 to 24.

Miss Minnie Hartlage of Bluefield, W. Va., who underwent an operation for appendicitis at Hempstead hospital last week, is improving steadily and will be removed Saturday to the home of her sister, Mrs. John Grimm, on Highland avenue, to recuperate.

Owing to the reception to be given Rev. and Mrs. Henry W. Buck at Second Presbyterian church on Friday evening, the Senior choir of the church will meet for practice on Wednesday evening immediately after prayer-service. The Pastor's choir will meet at 6:30 on Wednesday to practice for prayer-service and the anniversary celebration to be given for Dr. G. P. Horst.

The Woman's Home Missionary Society of Franklin Avenue M. E. church, will hold the regular meeting on Thursday afternoon, at 2:00 p. m., at the home of Mrs. John Hickham, 1834 Oakland avenue. Mrs. Margaret Shagle, Mrs. H. H. Heath and Miss Louise Resinger will be the assistants.

Mrs. Milton Byers of Niles, Mich., is visiting her son and daughter-in-law, Mr. and Mrs. Howard Woods, of 1009 Othello street. Mrs. Byers was formerly a resident of Portsmouth.

The members of Swastika division of the L. A. O. R. G. and their families will be entertained at the home of Mrs. L. W. Crookshanks, 1110 Grandview avenue, this evening at 7:00 o'clock.

Having spent their summer vacation with their parents, Mr. and Mrs. Adam Pfau, of Hutchins street, Miss Hazel Pfau has gone to Logan to teach English in the high school, and Miss Mildred Pfau has gone to Shelby, where she will teach domestic science in the high school.

Mrs. J. E. Foreman and grand-daughter, Miss Marjorie Foreman, have returned to their home in Oak Hill, W. Va., after a two weeks' visit to the former's daughter, Mrs. Frank Deaith, of Grant street.

The Mizpah class of Franklin Avenue M. E. church met Tuesday evening at the home of Mrs. L. S. Faught of Third street with Mrs. D. Morgan and Miss Viola Kitten as hostesses. There was a large number of members present and a most enjoyable evening was spent, after which the hostesses served a delectable lunch and home-made candy.

Miss Mildred Reed of this city has returned home after a visit to relatives in London.

Mr. and Mrs. S. Rothchild and daughter, Miss Ruth, of Ashland, Ky., are the guests of Mr. and Mrs. S. Rothchild of Fifth street.

Miss Grace Meyers of Ironton is visiting Portsmouth relatives and friends.

## Heat ALL Your House THROUGH ONE REGISTER

Yes, it's just as possible in your home as it has been in fifty thousand others. You, too, may have every room comfortable with balmy healthful heat, reaching every corner by Nature's method of circulation—and all through only one register! It isn't necessary to clutter up your house with pipes, overheat your cellar and incur big bills—not when you can get the

The Original Patented Pipeless Furnace

It can be set up in a day, without inconvenience to you, and will make your home so comfortable in the severest winter weather you will be well repaid.

Your house will be uniformly warm; your cellar will be just right for the storage of fruits and vegetables. Your fuel bill will be less than with stoves that heat only a part of your house.

## HERE ARE THE REASONS

The Caloric is the Original Patented Pipeless Furnace—the result of the study of competent engineers to solve the heating problem in the most satisfactory way. That they have succeeded is proved by the fact that the number of Caloric furnaces sold in an absolute guarantee of satisfaction is three times greater than any other pipeless furnace.

The cause of this satisfaction lies in the patented and exclusive principle that distinguishes the Caloric from all others. It is not a pipe furnace provided with an extra boiler, but a complete revolution in furnace building designed exclusively for pipeless heating.

## Come In And See Us

We will show you what these principles are, and you will see why Caloric is the only furnace that can be installed in a few minutes and why installation cannot be accomplished in any other way. Then you will be in no danger of being an inferior article, with all its disadvantages in later months. Get a copy of the book "Progress," which tells the facts about pipeless heating. If you can't come in, write for it.

## YOUR CHILD'S EYES

Are they normal or defective? The answer is of utmost importance. Defective eyesight in children will handicap them for years and lead to ill health and backwardness in studies. Don't guess about your child's eyes. Let us examine them. The proper fitting of glasses now may make them unnecessary later. Isn't it worth while to find out today?

# The Markets

**NEW YORK STOCKS**

NEW YORK, Sept. 15.—Much firmness manifested at the opening of today's stock market was due to the further strength of railroads. Gains of the previous day were irregularly extended. Tobacco, Lucknow and western adding 2 1/2 points to yesterday's substantial advance. Oils were next in favor. Pan-American petroleum rising 1 1/2 to 2 points respectively. Shipbuilding also recorded further improvement under lead of Atlantic Gulf and specialties were featured by Shell stocks, Sumatra tobacco and corn products. Exchange on London furnished a part of yesterday's recovery.

Rail's dominated the active forenoon. Atlantic Coast Line, Chesapeake and Ohio, Delaware and Hudson, Western Maryland second preferred and Kansas City Southern rising 1 to 3 points. Oils made further progress, notably Houston, Inverhale, Middle States and Royal Dutch, but Standard last. Among stocks and equipments General Electric, Westinghouse, National and United States, also American locomotive and Pullman rose 1 to 1 1/2. Tobacco scored further gains and shipbuilding and copper strengthened. United Railways preferred and National Clock and Bell were strongest of the obscure specialties. American Woolen, Industrial Alcohol and Republic motor were reactionary. The new French 5's rose to the high record of 102 1/2, but reacted on profit taking. Bullish entry money and better industrial outlook, however, helped to today's more expensive and higher stock market. Sales approximated \$50,000 shares.

# Looks Like Brooklyn And Yanks Will Be Pennant Winners

## Dodgers Almost Have It Cinched; Yanks Coming

NEW YORK, September 15.—Unless all baseball dopsters are wrong, it looks today as if the Brooklyn team will be the National League contender in this fall's world series. While the club is ably directed by "Uncle" William H. Kamm, it is not mathematically sure of the National League pennant; the percentage figures make it look a moral certainty.

Only two clubs are left to challenge the Brooklyn present lead of five games over the Cincinnati Reds and the New York Giants. The Giants apparently passed out yesterday as possibilities when the St. Louis Cardinals defeated them. It would now be necessary for the Giants to win fifteen of their remaining seventeen games to the Brooklyn should the latter win only seven or half of its remaining quota of games—13.

As for the Reds, they have almost as difficult a road as the Giants. They still have twenty games to play. In case Brooklyn wins only seven of its remaining thirteen games it would be necessary for Cincinnati to win 14 of the twenty to tie the Robins. The Reds are in the position of being forced

to win three straight to have a look in, and after they get through with Brooklyn they must meet the Giants in four contests. It looks like an insurmountable obstacle, even for Pat Moran.

**Series With Yanks**  
With the defeat of the White Sox and Cleveland teams yesterday, continued with the brilliant triumphing of the Detroit Tigers by the Yankees, the Yankees took the lead in the American League pennant race and makes exceedingly probable a greater New York World series contest between Brooklyn and New York.

President Hopper, or the National League, announces that the following games will be played by the three National League contenders from now till the close of the season:

Brooklyn with Chicago, 1; Cincinnati, 2; Pittsburgh, 2; Boston, 2; New York, 5. Total thirteen.

**Ebbets' Contingent**  
Cincinnati with Philadelphia, 1; Brooklyn, 2; New York, 4; Pittsburgh, 3; Chicago, 2; St. Louis, 1. Total 20.  
New York with Boston, 2; Pittsburgh, 4; Chicago, 1; Philadelphia, 1; Cincinnati, 4; Brooklyn, 5. Total 17.

## Earl Smith In Outfield

Earl Smith, who has been playing a buzz-up game at the hot corner for the St. Louis Browns, was shifted back to his old position in left field yesterday in order to give Jimmy Austin a

chance to break into the combat with the Boston Red Sox. Earl checked out one hit in six attempts, but his team was defeated in a contest which lasted 14 innings, 5 to 4.

## Game Was Full Of Thrills

The St. Louis-New York game Tuesday was full of thrills. McHenry got a header with two on. He also fanned with three on. Dillhoefer was chased to the dog house for protesting a dis-

tion at first. The team kicked long enough until Clemens could doff his citizen's clothes and jump into a uniform. The cards won, 9 to 3.

## League Sells 17 Players

The Texas league may "well" feel proud of its record this season. It has just sold 17 ball players to the American and National leagues and most

of the recruits have reported to their respective teams. Every club in this league made lots of money last year. In fact every minor league team in the game cleared up handsome sums.

### Achieving Civilization

To achieve civilization a race must conquer itself and each individual must master the savage within him. The fact that we have not yet succeeded in doing this Doctor Hayer advances as the reason why cultured man has never civilized a primitive race. Under our domination, as is well known, the savage either dies or becomes a worthless parasite or a helpless slave.

### Figuratively Speaking

"What you need is elbow grease," said the lady, after watching the tramp's languid efforts to split a stick of wood. "A purely figurative term, teddy," he responded. "If I know where 'elbow grease' could be purchased I'd buy some. But you can't purchase a purely metaphorical commodity." "Oh, I don't know. You evidently know where to buy nose paint."

# CONFERENCE TEAMS ARE GETTING DOWN TO WORK

## PENNY ANTE

## The Proud Papa

CHICAGO, Sept. 15.—Football, the most popular of college sports, will come into its own in the Western conference today with the opening of the practice season for the fall grid-iron campaign.

Reports from the universities in the "Big Ten" indicated that the largest squads in years responded to the call, and that the season's bids fair to eclipse the one of a year ago, the most successful in years.

The teams with the possible exception of Northwestern and Purdue will be made up largely of veteran players of known ability.

The practice for the remainder of the week will consist chiefly of lumbering up work.

Illinois, winner of the 1919 championship, will start the season well fortified with veterans. John Depler, an all-western center is captain of the eleven.

Ohio State, runner up in the championship, will build its 1920 machine around "Pete" Stinchcomb, whom the coaches regard as a second "Chick" Harley. Stinchcomb was regarded as one of the best quarterbacks in the west last season. Iowa and Minnesota promise to develop formidable teams.

The Minnesota prospects appear the brightest in years and a heavy and fast line with a speedy backfield seems assured. Iowa will have the Devine brothers as its principal asset, while Wisconsin will rely upon Captain Weston, an end of great ability.

With the eligibility of Frank Stokely, an all-American full back in 1918, raised, Michigan promises to be in the field with a husky team of veterans. Ite and Dunn, ends and Cohen, half back, will be other stars of this season's Wolverine eleven.

Coach Slagle of the University of Chicago has back field material of ability for which to make his selections. The team will be captained by "Red" Jackson, one of the best forwards ever developed at Chicago.

## SPEAKING OF BONERS

Shortstop Crause of the Reds pulled that Wingo's hit was caught. Crause remained on third and a moment later perched at the plate on an infield tap. Who can beat this one? board for a double. Some fans yelled Shades of one Mr. Merkle.

## Yanks Are In First Place

The Yankees slipped into first place Tuesday and many fans believe they are there to stay. They beat Detroit while Chicago and Cleveland were being blanked and are now setting the pace in the American and the team is hitting like a house afire.

## Harley Is Assistant Coach

COLUMBUS, O., Sept. 15.—With Ohio State football team into shape, "Chick" Harley, all American half-back, put in his appearance to assist begin this afternoon to round the 1920 coaching of the first practice.

## Speaker Overtakes Sisler

George Sisler, the St. Louis star, who was topping the "batters in the American league, ran into a batting slump when the Mound City club invaded the East on the last night, and as a result Tris Speaker, manager of Cleveland is leading the procession with an average of .395. Sisler is the runner-up, however, only one point behind with .394. Eddie Collins, captain of the Chicago White Sox, has greatly improved his batting mark and is pressing Jackson, a team mate, and Ruth of New York, Jackson is batting .377, Ruth .374 and Collins .367.

"Babe" Ruth has played in only one game since the last averages were compiled and in that contest he cracked out his forty-fourth home run. His total base record was brought up to 310 and his scoring record to 134.

Rice of the Washington team was not able to steal any bases during the week but his .45 thefts give him a big lead over his nearest rival, Sisler, who has pilfered 28.

## To Play State On October 23

MADISON, WIS., Sept. 15.—The University of Wisconsin has a hard series on the gridiron closing the season, Ohio State, Minnesota, Illinois and Chicago coming in a row. The 1920 gridiron dates of the Cardinals are as follows:

Oct. 9—Michigan at Madison.  
Oct. 16—Northwestern at Madison.  
Oct. 23—Ohio State at Columbus.  
Nov. 6—Minnesota at Minneapolis.  
Nov. 13—Illinois at Madison.  
Nov. 20—Chicago at Chicago.

## To Celebrate "Indian Day"

On Friday evening, September 24th, the Improved Order of Red Men will celebrate Indian Day in their hall on Second street. A committee, including John Rice, John Sterns and John Carr, has been appointed to arrange for a program. Members of the Degree of Pocahontas will also participate in the affair. Concluding the program, refreshments will be served, after which dancing will be enjoyed until a late hour.

Her neighbors were discussing the character of a venerable woman whom they esteemed to be wise in her generation, but a young man said he knew him that she showed great lack of wisdom in one respect. "What is that, pray?" inquired one of the group. "Why," said the young man, "she always puts out her tub to catch soft water when it's raining hard."

## BROTHERS LEAD RIVAL GRID TEAMS: ONE'S AT PRINCETON, OTHER AT YALE

Capt. Henry A. Callahan of Princeton, left, and Capt. John T. Callahan of Yale.

One of the most interesting features of the coming football season, from the human interest standpoint, will be the playing of the Callahan brothers, who are captaining the Yale and Princeton teams. The day of the greatest interest will be when Yale plays Princeton and they face each other. There is the first time recorded when brothers captained two of the leading eastern varsity teams.

## Nicholson Is Setting Pace In The National

Outfielder Nicholson, the Pittsburgh slugger, has taken the lead among the National league batters, from Roger Hornsby of St. Louis. Nicholson experienced a great period at bat during the week and is leading the list with an average of .384, among players who have participated in fifty or more games. The averages released today include games of last Wednesday. Hornsby did not do so well with the willow and dropped to .355. However, he is well ahead of bays of Boston.

Max Carey of Pittsburgh stole three in the past week and is showing the way to the base stealers with 48. Burns of New York has taken the lead from Hancock, a teammate, as the best run getter. Burns registered 87 times to Hancock's 81.

Other leading batters, Young, New York, .380; Roush, Cincinnati .333; Stock, St. Louis .333; J. Smith, St. Louis .321; King, New York .322; Hollocher, Chicago .318; Z. Wheat, Brooklyn .316; Konechky, Brooklyn .316; Fournier, St. Louis .313; Myers, Brooklyn .311; Williams, Philadelphia .311.

**Gas Meter Most Accurate**  
Put 100 of the best watches against 100 gas meters in a test for accuracy, exposed to the same varying conditions of heat, cold, humidity, and the meters will win out every time, says a bulletin. The gas meter is regarded as one of the most accurate measuring instruments in use today. Like the registering turnstile in parks, railroad stations and fair grounds, the meter will not operate unless something passes through it. The mechanism is not set in motion and the indicator hands cannot move except as gas passes through and makes them move. It is interesting to know that the original mechanical principles adopted in 1844 for the correct measurements of gas still persist, and that while hundreds of inventors have endeavored to discover something better, they have improved upon details only.

## INVESTIGATING GAMBLING CHARGE

(New York Sun)  
Never before in the long history of the National League was a president of that organization confronted with as many matters for investigation as are before John Hopper. The prober's activities of gamblers are giving him the greatest trouble, and with the limited forces which are at his command first to find out if this report is correct. Then it would be very in evidence with the spirit of baseball. Would not see him after he has a deliberation effect on the club receiving it when it played against the makers of the effort. Of course, we are not very certain that this offer was made. But the report is correct that it was broadcasted to Roger Marmon.

## OHIO STATE HAS HARD SCHEDULE

COLUMBUS, O., Sept. 15.—Five Western conference games are on the football calendar of Ohio State this fall. Only three games will be played away from the campus and the rest at the stadium. When the Buckeyes journeyed to Chicago for their first game abroad, October 30, it will be the first time that any Buckeye football men have met Coach Slagle's warriors on the football field. Athletic officials at the Buckeye are confident for several years have attempted to attract Chicago to their campus, but it was not until last year, after Ohio State had shown on three successive occasions that she was of the final quarter, linked by "Chick" Harley, the Buckeye's premier All-American football.

The annual homecoming game will fall to Michigan this year, November 6 and will be played on the Ohio Field. Reports emanating from the Wolverine institution indicate strong preparations are being laid by Coach Yost and his cohorts to reverse Michigan's past favor on the gridiron. Last year Ohio State defeated them at Ann Arbor, 13 to 10. Michigan and Ohio State are national rivals and this probably will be one of the hardest fought and most interesting games of the season.

Two weeks later, November 20, Ohio State will travel to Urbana and meet Illinois in the final game of the season. Last year Illinois matched the Buckeyes from the Packers in the final eight rounds of play.

Officials were attached to the playing decisions. Purdue, the first western conference game of the season, October 14, will be the main attraction of the semi-annual celebration on the campus that week. Alumni from all sections of the country will attend this contest to witness the work out of their team against Big Ten competition and to attend the various festivities on the campus. One week later, October 25, Wisconsin's team will be met here. Last year, the Buckeyes won from the Badgers by a score of 20 to 0. After Ohio State had shown on three successive occasions that she was of the final quarter, linked by "Chick" Harley, the Buckeye's premier All-American football.

There are the men who form the heart of the wrestling crew. Pat Duncan, one of the greatest, is the youngster who joined the team late last year from the minors and was a big star in the world's series. Groh, Daubert and Roush are veterans. Roush tops the four with a mark around .325.

## SUGAR PROFITEER STILL AT WORK

CONSIDERABLE light has been let in on the methods of New England sugar refiners and the steps taken to enforce an arbitrary price for their commodity by an investigation which has been under way in Boston.

It was shown that wholesale grocers in order to get a supply were forced to sign an iron-bound contract to pay 22½ cents a pound for sugar. Did they show an inclination to, refuse the terms, they were threatened with the situation of having no sugar with which to supply customers during the coming season. The market price based on supply and demand appears to have been wholly disregarded. The refiners had the sugar and were able to dictate terms.

As a result wholesalers are still bound to pay 22½ cents, though the retail price generally is below those figures. Notwithstanding the change in conditions the refiners insist on the "pound of flesh." It is not astonishing that those bound to pay 22½ cents should suffer some pang of remorse when they face market conditions though they do not escape entire culpability for the condition. Had the wholesalers defied the refiners and done without sugar, unless they could buy it at a fair price, they would thus have assisted in thwarting the robbery that was perpetrated on the people. Yielding, even though under compulsion, they in a measure became a party to the exorbitant charges.

Though the price has broken it appears that those who hold stocks of sugar are not without hope that they may be able to manipulate the supply so that it will be possible to boost prices again. It is stated an effort is being made to head off stocks of sugar on the way here from Java and divert them elsewhere so as not to add still further to the surplus here. Then, the refiners will refuse to sell except on their own terms, thus creating another artificial scarcity that will enable holders to get whatever prices they ask.

It's a great game that is being practiced. Having had a taste of easy money the sugar people seem most reluctant to let go of a good thing, though present prices are about four times the pre-war price. But greed is boundless. It fattens on itself.

## JOBS FOR ALL

THERE will be a job for every man who wants to work next winter, is the confident assertion of the director of the employment service of the United States department of labor. More than that, he believes that the next few months will be the best in years of peace so far as ready employment is concerned.

Such prophesy is gratifying and will refute the calamity howlers who are always particularly active in seasons of presidential campaigns.

In the readjustments through which we are now passing it has been unavoidable that there should be certain disarrangements of industry. But with continuance of a pronounced world shortage of many materials and manufactured articles it is inconceivable that stagnation could be either general or prolonged.

Undoubtedly one of the most disturbing factors in the situation is the problem of the price level. Until uncertainty is largely removed, business men will avoid large commitments, and as long as they feel inclined to pronounced conservatism, resumption and expansion are certain to be somewhat retarded.

In discussing the commercial and industrial situation the man who dares to prophesy from day to day or from week to week flirts with discomfiture. But the man who prophesies for the "long pull" will, if he is a booster for America, not go far wrong. What must be remembered is that the United States is becoming more and more the center of the world's dependence, that our prosperity is just beginning, and that the achievements of the future are certain to outstrip those of the past.

The man who puts his faith in America for "the long pull" can endure passing fluctuations with equanimity and confidence. America has a golden future so much greater than opportunities which have confronted nations in the past to be beyond comparison. Whether it shall be grasped depends on American business men—and upon every American.

Be an American—boost for America!

The farm bureau drive started off Monday in approved style. Do your part, Mr. Farmer to make it a success. Scioto county has just got to be put 'way up on the agricultural map and nothing will contribute so much and so quickly to that end as a farm bureau of class.

The man who tries to get his exercise by dodging income taxes may realize that his system is out of order when the government gets him.

Monday was a regular September day. A dozen or so more right now would be acceptable, according to our agricultural co-laborers. Corn is maturing and frosty nights are hastening on to us.

It wouldn't be near so hopeless for the Reds if they could only find some team to beat Brooklyn.

Rather a pity that Moran didn't borrow the whole bunch of Solvays to play those last three games with Boston.

The failures in marriage would not be so noticeable if the persons involved were not so noisy about it.

There is not much to be said for the citizen who is just as good as the law compels him to be.

About the biggest bore imaginable is the man who goes around imparting information for which no one cares.

One of the causes of the high cost of living is buying things you do not need at prices you cannot afford to pay.

It is hoped that the French scientist who claims to be able to transplant hair to bald heads is not another fooler.

A lot of male voters, somewhat careless in dress, will probably feel like "sprucing up" a bit this fall.

A pussyfooting candidate is one who slips through the back door to cajole the cook into voting for him.

Even the most casual knowledge of anatomy will show that nature gave most men considerably more lungs than brains.

## New-York-Day-By-Day

BY O. O. MONTYRE

NEW YORK, Sept. 15—

I have just inquired.

And I feel like.

I was lost in Calzo.

And I saw the neighbors.

Peeping at my things.

As they were brought in.

And I know they think.

We are very poor folks.

In fact almost anybody.

Looks poor when they move.

And I don't believe I ever saw.

An aristocratic moving.

But all of our stuff.

Looked like something.

The cat had dragged in.

And I bought a new trunk.

And put my initials on it.

But in my haste.

I shut the lid down.

Leaving the lower section.

Of a pair of striped pajamas.

Waving in the breeze.

And it seemed to tickle.

The neighbors very much.

For they all grinned.

As the moving men.

Lifted it out of the van.

And then we began to unpack.

And if there is one thing.

That I do not do well.

It is to unpack.

As a matter of fact.

I was never much at packing up.

But I opened a box.

And took out a shoe.

And walked around with it.

But couldn't see any place.

That I could put it.

So I held it awhile.

And let the dog jump for it.

And it was having lots of fun.

Until my wife yelled.

And asked me if I expected.

To help or stand helpless.

So I put the shoe down.

And got another shoe.

That I had never seen.

And it was the funniest shoe.

It looked like it might.

Belong to Charlie Chaplin.

And while I looked at it.

My wife snatched it away.

And sent me out.

For a walk with the dog.

## The Diary of an Engaged Girl

LINDSEY WONDERS WHAT CAN BE WRONG WITH JACK

I was very prompt about keeping my appointment with nunt and Jeff. This evening—partly because the count was too eager for me to linger on with him, and I've learned when to flit away from danger, I have; and partly because I was afraid that Cecil might walk into the place at any minute, and be fearfully angry with me for being with the count at all!

Aunt Cecilia and Jeff had been go-

ing some all the afternoon themselves, and were tired out. So we all went back to our hotel, washed up a bit, and decided to have dinner right there with the little mother, who was also tired.

One miserable card from Jack today saying that he was very much upset about several matters, and that's why he had not written for two weeks. Pooh! Let him keep up his silent treatment; maybe I can show him a thing or two in that line, and some

others, myself!

Well, I'm not going to let any man, not even a fiance, spoil my trip to Europe, nor my young beauty, nor my temper—so there!

It's all my own fault for ever letting myself become engaged to anybody at all—just at present. I'm not old enough to keep constant to a man, nor am I old enough to know my own heart or mind thoroughly—at least I don't think so.

I shall maintain a dignified silence from now on, and Jack can think what he likes. I shall not run after any man; neither shall I allow any man to neglect me, even if I am three thousand miles away. The funny part of it all is that any one would think that Jack was the only man in the world who was infatuated or in love with me. Well, he isn't, and that handsome cousin of mine of Count de Cherin would both give their right hands to be my fiance—that I know. Instinct tells me, and she isn't ever wrong.

No, there is really no need at all for me to sit at home and weep in silent sorrow of submission—not for a minute.

I have promised Mr. Antoine to have luncheon with him tomorrow, and not only that, I may even go out to Fontainebleau with him for the afternoon.

It's such a wonderful time of year now that it makes it hard on me to have to feel this way about Jack—and to think that I had hoped to be married in November at least!

We all went to the theater tonight—saw "L'Arlequin" at the Odeon. It is the saddest play I have ever seen—all about a young peasant boy who falls in love with a beautiful woman from Arle (where they do say the women are the loveliest in the whole of France), and his family keep stopping his love affair, and trying to make him marry a nice but dull peasant girl of his own village. In the end they drive him mad, and he throws himself from the tower of his mother's house in despair, and for the sake of unrequited love! It made me cry much, coming along at a time when I feel so tragic about love, myself, and all that.

I hope that most of us, who are men and women who do die for love, which is something that most of us suffer at, are quieted love, though, I must say, I want to live and live, and then live some more and be happy with—well with Jack, if he repents, and have a home of my own and little Jacks and Lindseys and everything. That's what I really long for most in this world just now!

## WHO'S WHO In The Days News

DR. MATTI HELENIUS-SEGALA

A distinguished visitor from Finland is in our midst. He is Dr. Matti Helenius-Segala, Europe's leading prohibitionist, and he has come all the way from Helsinki to speak at the fifteenth International Congress Against Alcoholism, shortly to convene in Washington, D. C.

Dr. Helenius, as he is familiarly called, is the man who made Finland dry. As prohibition was definitely adopted, the government thought that the application of the law of June, 1910, would be best placed in his hands. He was accordingly appointed chief of the temperance division at the social ministry, and has since become the terror of Finnish moonshiners.

Dr. Matti Helenius-Segala was born in Finland in 1870. He studied statistics and political economy and published for the doctor degree a renowned book on the alcohol question, which has been translated into several languages. # G. O. P. SLUSH FUND OVER 25 MILLION, CHARGES COX

## RAISES PREVIOUS FIGURE OF FIFTEEN MILLION DOLLARS

PORTSMOUTH, Sept. 15.—A fund of from \$25,000,000 to \$30,000,000 is being raised to defeat him, Governor Cox, of Ohio, Democratic presidential candidate, declared during his tour of Idaho and eastern Oregon. Although the governor's charges heretofore were that the total opposition fund would be not less than \$15,000,000, he raised that figure.

The governor's statement was made during an hour's speech from the second story veranda of a Nampa, Idaho, hotel, and in response to a question from his audience asking how he expected to return conditions to normal, "when 80 percent of the wealth is held by two percent of the people."

"If 80 percent of the people will forget their politics," the governor replied, "and help me lick the two percent that is raising a fund of from \$25,000,000 to \$30,000,000 to beat me, we will make government an agency for the hundred percent and not the two percent."

Following his physician's orders, leaving outdoor speeches, the governor, believing his attack of "speakers' laryngitis" on the wane, delivered a string of platform and other addresses. His voice still was hoarse, but he weathered another strenuous day of campaigning in good shape, he said.

**SUGAR PROFITEER STILL AT WORK**

CONSIDERABLE light has been let in on the methods of New England sugar refiners and the steps taken to enforce an arbitrary price for their commodity by an investigation which has been under way in Boston.

It was shown that wholesale grocers in order to get a supply were forced to sign an iron-bound contract to pay 22½ cents a pound for sugar. Did they show an inclination to refuse the terms, they were threatened with the situation of having no sugar with which to supply customers during the coming season. The market price based on supply and demand appears to have been wholly disregarded. The refiners had the sugar and were able to dictate terms.

As a result wholesalers are still bound to pay 22½ cents, though the retail price generally is below these figures. Notwithstanding the change in conditions the refiners insist on the "pound of flesh." It is not astonishing that those bound to pay 22½ cents should suffer some pangs of remorse when they face market conditions though they do not escape entire culpability for the condition. Had the wholesalers defied the refiners and done without sugar, unless they could buy it at a fair price, they would thus have assisted in thwarting the robbery that was perpetrated on the people. Yielding, even though under compulsion, they in a measure became a party to the exorbitant charges.

Though the price has broken it appears that those who hold stocks of sugar are not without hope that they may be able to manipulate the supply so that it will be possible to boost prices again. It is stated an effort is being made to head off stocks of sugar on the way here from Java and divert them elsewhere so as not to add still further to the surplus here. Then the refiners will refuse to sell except on their own terms, thus creating another artificial scarcity that will enable holders to get whatever prices they ask.

It's a great game that is being practiced. Having had a taste of easy money the sugar people seem most reluctant to let go of a good thing, though present prices are about four times the pre-war price. But greed is boundless. It fattens on itself.

**JOBS FOR ALL**

THERE will be a job for every man who wants to work next winter, is the confident assertion of the director of the employment service of the United States department of labor. More than that, he believes that the next few months will be the best in years of peace so far as ready employment is concerned.

Such prophesy is gratifying and will refute the calamity howlers who are always particularly active in seasons of presidential campaigns.

In the readjustments through which we are now passing it has been unavoidable that there should be certain disarrangements of industry. But with continuance of a pronounced world shortage of many materials and manufactured articles it is inconceivable that stagnation could be either general or prolonged.

Undoubtedly one of the most disturbing factors in the situation is the problem of the price level. Until uncertainty is largely removed, business men will avoid large commitments, and as long as they feel inclined to pronounced conservatism, resumption and expansion are certain to be somewhat retarded.

In discussing the commercial and industrial situation the man who dares to prophesy from day to day or from week to week lists with discomfiture. But the man who prophesies for the "long pull" will, if he is a booster for America, not go far wrong. What must be remembered is that the United States is becoming more and more the center of the world's dependence, that our prosperity is just beginning, and that the achievements of the future are certain to outstrip those of the past.

The man who puts his faith in America for "the long pull" can endure passing fluctuations with equanimity and confidence. America has a golden future so much greater than opportunities which have confronted nations in the past to be beyond comparison. Whether it shall be grasped depends on American business men—and upon every American.

Be an American—boost for America!

The farm bureau drive started off Monday in approved style. Do your part, Mr. Farmer to make it a success. So far county has just got to be put "way up on the agricultural map and nothing will contribute so much and so quickly to that end as a farm bureau of class.

The man who tries to get his exercise by dodging income taxes may realize that his system is out of order when the government gets him.

Monday was a regular September day. A dozen or so more right now would be acceptable, according to our agricultural collaborators. Corn is maturing and frosty nights are hastening on to us.

It wouldn't be near so hopeless for the Reds if they could only find some team to beat Brooklyn.

Rather a pity that Moran didn't borrow the whole bunch of Solvays to play those last three games with Boston.

The failures in marriage would not be so noticeable if the persons involved were not so noisy about it.

There is not much to be said for the citizen who is just as good as the law compels him to be.

About the biggest bore imaginable is the man who goes around imparting information for which no one cares.

One of the causes of the high cost of living is buying things on do not need at prices you cannot afford to pay.

It is hoped that the French scientist who claims to be able to transplant hair to bald heads is not another fooler.

A lot of made voters, somewhat careless in dress, will probably feel like "sprucing up" a bit this fall.

A pussyfooting candidate is one who slips through the back door to enjoy the cook into voting for him.

Even the most casual knowledge of anatomy will show that nature gave most men considerably more lungs than brains.

BY O. O. MCINTYRE

NEW YORK, Sept. 15—  
I have just moved.  
And I feel like.  
I was lost in Cairo.  
I saw the neighbors.  
Peeping at my things.  
As they were brought in.  
And I know they think.  
We are very poor folks.  
In fact almost anybody.  
Looks poor when they move.  
And I don't believe I ever saw.  
An aristocratic moving.  
But all of our stuff.  
Looked like something.  
The cat had dragged in.  
And I bought a new trunk.  
And put my initials on it.  
But in my haste.  
I shut the lid down.  
Leaving the lower section.  
Of a pair of striped pajamas.  
Waving in the breeze.  
And it seemed to tickle.  
The neighbors very much.  
For they all grinned.  
As the moving men.  
Lifted it out of the van.  
And then we began to unpack.  
And if there is one thing.  
That I do not do well.  
It is to unpack.  
As a matter of fact.  
I was never much at packing up.  
But I opened a box.  
And took out a shoe.  
And walked around with it.  
But couldn't see my place.  
That I could put it.  
So I held it awhile.  
And let the dog jump for it.  
And it was having lots of fun.  
Until my wife yelled.  
And asked me if I expected.  
To help or stand helpless.  
So I put the shoe down.  
And got another shoe.  
That I had never seen.  
And it was the funniest shoe.  
It looked like it might.  
Belong to Charlie Chaplin.  
And while I looked at it.  
My wife snatched it away.  
And sent me out.  
For a walk with the dog.

**BILLY WHISKER**  
BY FRANCES TRESSO MONTGOMERY

By the time the first mate had tried in vain to find out the cause of the false signals caused by Billy and his leather chewing the wires, the captain came bustling into the pilot house.

"Are you a plum job?" demanded the captain of the mate. "Can't you be left in charge of this ship? Have you been drinking? First you stopped the ship, then you put back for France, then you turn again, and now you blow a landing whistle!"

At that moment the fog horn began to sound, although the sea was almost as bright as day with a round moon shining overhead and the stars studded thick in the sky.

The captain himself grabbed the telephone.

"I want to know who's doing all this!" he demanded. "Who's in charge there?"

"I am, sir; the second engineer," answered the mate.

"Put your assistant in charge and report to me in the pilot room at once."

Just then the chief engineer came in.

"What does all this mean?" roared the captain.

"I don't know, sir," said the engineer. "I got signals to stop, then to put about, then to come back for the engine, all of which I did."

"I don't want you to attempt to put this on to me," said the mate. "I haven't touched a button for an hour. There has been no necessity. We have been going straight on our course."

All this while the steward had been saying worryingly. "The bells were ringing from every cabin on the ship and the waiters were running about the place like mad. First one bell, then another would ring, and always when the waiters went to those cabins they were told that nothing was wrong."

**Wanted and were abused for "waking people up."** That part of it was Billy Whisker's work, and he did as much to put the ship in an uproar as had his mother. The sound of the fog horn and the stopping and starting of the ship, the whistling and the clanging of the bells, kept everybody awake that had been awakened by the waiters, and lastly threatening on clothing, the passengers began to hurry out on to the decks to find out what was the matter.

The steward came hunting the captain, right after the second engineer.

"This ship is bewitched," he cried, waving his hands and told the captain of all his trouble that he was having with fake alarms. Everybody looked at everybody else as if they thought that the others had all better be in the asylum, and it was just at that moment that Billy Whisker, deep in that hold turned to his mother and said:

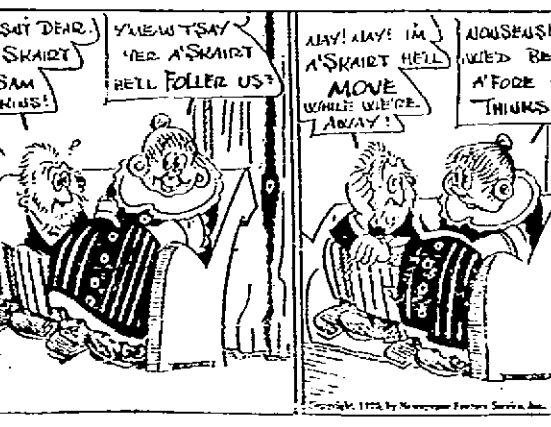

"Oh, come on! I don't like this stuff very well myself," and leaving the little closets to themselves they trotted humbly upstairs not knowing all the trouble they had made.

# CLAIM ALLEN HAS CONFESSED THAT HE STOLE AUTOMOBILE

## HELD TO U. S. GRAND JURY

Earl C. Allen, aged 21 years, was taken into custody at New Boston, Ind., on Wednesday morning by Sheriff Hickey on suspicion of having stolen a 1920 model Buick automobile found in his possession.

The accused, on being taken to the county jail, confessed to having stolen the machine from the Indiana capital last Friday, according to the official report.

Allen drove the machine, which from all indications, belongs to George Riser, a farmer at Reesville, Indiana, through to this city, arriving Sunday, when he has been getting the real report about New Boston. It is claimed.

The prisoner is held at the county jail for the Indiana authorities.

IRONTON, Sept. 15.—Nine defendants, charged with making illicit liquor and with having it in their possession, were bound over to the United States grand jury, which sits in Cincinnati, at the opening of the October term of the U. S. court, after a preliminary hearing in the probate court room this morning before Judge Charles E. Pugh.

Five of the defendants, George Tiller, Irvin Shore, Chas. McMan, Charles McInnes and David C. Hines, were bound over to the grand jury on a state warrant, under bond of \$200. The bond for appearance in federal court was fixed at \$2,000 by Magistrate Pugh. The state warrant charges defendants with selling liquor. All nine defendants furnished bond and were released.

The only witness placed on the stand was Revenue Officer McCullough, who was one of the chief operatives in the opening drive against illicit liquor making in Lawrence county.

The defendants were represented by a group of legal talent including Andrews and Irish, Johnson and Jones, Edwards and Riley, T. A. Jenkins, E. S. Commissioner, represented the state and Jed B. Biddle.

## Air Postmen Burn To Death

CLEVELAND, O., Sept. 15.—Air Mail Pilot Walter Stevens and Mechanic Russell Thomas, both of Cleveland, were burned to death at 8 o'clock today when their plane caught fire at an airport of two feet at Pendergast, Ohio, 15 miles south of Toledo.

Stevens and Thomas were flying a C. L. 1000 ft. biplane. They left here at 12:30 p. m. for Chicago with 20 pounds of mail which they were delivering after an accident on which their plane was wrecked here today and Pilot William R. Ruffin, a pilot, was injured, shortly after taking off.

Stevens was a veteran of the air mail service, having been a member since 1917. He came here from the Navy. Ruffin, before departing for Chicago, had been at the airport for some time, but he had left the plane at 12:30 p. m. and had not yet taken off.

Thomas was a pilot of four days.

## Young Man Stabbed

Martin Sommer, 18 year old son of F. J. Sommer of Carey's Run, is in Hemphill hospital with a serious stab wound in his stomach, a laceration on his left forearm, the result of a three round fight on Carey's Run a short distance from his home about 11:30 Tuesday night when it is alleged he was attacked by Harold and Lewis Hopkins who live on a neighboring farm on Carey's Run, Young State, where with the owner, Young Sommer, and three men were performing work on his way home from the street car in this city when he was attacked.

The wounded man was taken to the hospital and as soon as the police of the authorities, this morning fight started, they jumped out and could not talk of the fight or tell separated the three boys, before one of the two had the knife.

Young Sommer, his brother Ray, Sommer and Frank and Will Sommer of Carey's Run were driving home in a car, which was being followed by the Hopkins boys, when something went wrong with the car, and the Sommer boys got out to leave the car and as he to determine the seriousness of the wound in the stomach. The knife blade pierced the stomach. Several stitches were necessary to close the wound on the left side and left foot. The boys were not shot, but they were not shot.

Sommer was in constant attendance at his brother's bedside this morning, the wounded man being very restless.

The fight is the outcome of an old grudge between the Hopkins boys and one of the Hopkins.

Sommer boys according to Ray Sommer, no charges had been filed against the Hopkins boys this morning but at the Sommer home it was said that some action would be taken today.

A short time ago one of the Hopkins boys was in Municipal Court the result of a fight between Edward Sommer and a younger boy than Martin Sommer.
